Leland

GRE SELF-STUDY COURSE

Title Goes Here

PART 1

Foundations

Core concepts and building blocks

SECTION LABEL

Content Slide Title

Main content paragraph goes here. This demonstrates the base content slide with larger, more readable body text that matches Leland marketing standards.

KEY CONCEPTS

Study Strategies That Work

- Active recall: Test yourself instead of passively rereading notes
- Spaced repetition: Review material at increasing intervals over time
- Interleaving: Mix different topics or problem types in each session
- Error analysis: Track and categorize your mistakes to find patterns
- Timed practice: Simulate test conditions to build pacing skills

WHAT YOU GET

Course Resources

- Practice Tools: Custom problem sets with adaptive difficulty
- Study Schedule: Week-by-week plan tailored to your target score
- Video Lessons: Concept explanations with worked examples
- Progress Tracking: Monitor your improvement across all sections

SCORE BREAKDOWN

GRE Section Overview

SECTION	QUESTIONS	TIME
Verbal Reasoning (x2)	27 questions per section	41 minutes per section
Quantitative Reasoning (x2)	27 questions per section	47 minutes per section
Analytical Writing	1 essay	30 minutes

QUESTION TYPES

Verbal Reasoning Format

Text Completion

Fill in blanks with the best word or phrase based on context.

Sentence Equivalence

Select two answers that create sentences with equivalent meaning.

Reading Comprehension

Answer questions based on short and long passages.

STRATEGIES

Four Pillars of Prep

Content Mastery

Learn the core concepts and formulas tested on the exam.

Strategy Development

Build efficient approaches for each question type.

Timed Practice

Simulate real test conditions to improve pacing.

Error Analysis

Review mistakes to identify and fix weak areas.

QUESTION TYPES

Quantitative Formats

01

Comparison

Compare two quantities and determine their relationship.

02

Multiple Choice

Select one or more correct answers from given options.

03

Numeric Entry

Type your answer directly into a box with no options.

MATH FOUNDATIONS

Core Concept Areas

01

Arithmetic

Number properties, fractions, decimals, and percents

02

Algebra

Equations, inequalities, functions, and coordinate geometry

03

Geometry

Triangles, circles, polygons, and 3D figures

04

Data Analysis

Statistics, probability, and data interpretation

PROCESS

Problem-Solving Workflow

1

Read

Identify what the question is asking

→

2

Plan

Choose your approach before calculating

→

3

Solve

Execute your plan step by step

→

4

Check

Verify your answer makes sense

STUDY PLAN

Your 12-Week Timeline

WEEKS 1-4

Foundation

Build core skills and learn all question types

WEEKS 5-8

Practice

Timed drills and error analysis on weak areas

WEEKS 9-12

Peak Performance

Full-length tests and final review

COMPARISON

Verbal vs Quantitative Prep

Verbal Reasoning

- Build vocabulary with context clues
- Practice passage-based reading daily
- Learn sentence structure patterns

Quantitative Reasoning

- Master core formulas and properties
- Focus on problem-solving strategies
- Practice data interpretation skills

RESOURCES

Official ETS Materials

Image: 400 x 240

The Official Guide to the GRE

The most authoritative resource for GRE preparation.

- Written by the test makers
- Real questions from past exams
- Detailed answer explanations

COMMON MISTAKES

Avoiding Careless Errors

× Incorrect Approach

Rushing through the problem without reading all answer choices.

"I picked the first answer that seemed right and moved on."

✓ Correct Approach

Reading all options before selecting, even if one looks obviously correct.

"I always check every choice because trap answers exist."

EXAMPLE 1

Working with Fractions

Problem

Simplify: $\frac{2}{3} + \frac{1}{4}$

Solution

Find common denominator:

$$\frac{2}{3} + \frac{1}{4} = \frac{8}{12} + \frac{3}{12} = \frac{11}{12}$$

Answer: $\frac{11}{12}$

CATEGORIES

Color-Coded Badge System

SUCCESS

Mastered Concepts

Topics you've consistently answered correctly on practice tests.

WARNING

Needs Review

Areas where you're making occasional mistakes.

CRITICAL

Major Gaps

Topics requiring significant additional study time.

INFO

New Material

Content you haven't encountered yet in your prep.

DAILY ROUTINE

Sample Study Session

Warm-Up (15 min)

Review flashcards and vocabulary from the previous session to activate recall.

Core Practice (45 min)

Work through a timed problem set focusing on your weakest question type.

Review (15 min)

Analyze every wrong answer. Write down the concept you missed and why.

RESOURCES

Recommended Materials

OFFICIAL RESOURCES

- ETS Official Guide (6th Edition)
- PowerPrep Online Practice Tests
- ETS Verbal and Quant Supplements

SUPPLEMENTARY TOOLS

- Vocabulary flashcard apps
- Math formula reference sheets
- Timed practice problem sets

TIPS

Test Day Preparation

Pro Tip: Use the light green card to highlight positive advice, best practices, or key takeaways that students should remember.

Arrive at the testing center 30 minutes early. Bring a valid photo ID and your confirmation email. You're allowed to bring a small snack for breaks.

IMPORTANT

Score Reporting

Your official scores are available approximately 8-10 days after the test date. You can send scores to up to four graduate programs for free on test day.

> ⓘ Note: Additional score reports cost $30 each. Check each program's deadline to ensure scores arrive on time.
